- Master's in Professional Web Development and Applications
Universidad Europea Madrid
2023 – 2024
Overall GPA: 9.04/10
Thesis graded 10/10
- Diploma in Graphic Design
Escola Espai Barcelona
January 2023 – August 2023
Specialized in Adobe Photoshop, Illustrator, InDesign.
- Bachelor's in Ecotourism
Universidad Metropolitana de Honduras
2007 – 2010
Overall GPA: 8.7/10
Universidad Metropolitana de Honduras
2007 – 2010

Languages

- Spanish: Native
- English: C2 (Bilingual, 12 years in bilingual school)

Highlighted Projects

01

Freelance Project: Customized Portfolio (In Development)

Freelance Project: Customized Portfolio (In Development)

Website for a Freelance Client

- Technologies: React, Django, TailwindCSS
- Developing a professional portfolio for a psychologist client, focusing on responsive design, branding, and a functional backend.
- Outcome: Showcases personal and professional branding with interactive components.

02

Personal Portfolio

Website to showcase projects and skills

- Technologies: React, Django, MUI Material
- Built a fully responsive portfolio with a functional contact form using Django and Python.
- Included a dynamic design element using Canvas Sketch to enhance visual engagement.
- Integrated animations and modern design to enhance user experience.
- Portfolio: Fully responsive and available at webcode-art.com. [GitHub Repository](#)

03

DineBooker

Restaurant Reservation Platform

- Technologies: React, Django, PostgreSQL, Node.js
- Developed as my master's thesis to revolutionize the dining experience for both users and restaurant owners.
- Combines real-world data with fictional elements, showcasing advanced features for restaurant discovery, reservation management, and user engagement.
- Key Features:
 - User Profiles: Manage reservations, earn and redeem DinePoints, edit reviews, and favorite restaurants.
 - Advanced Search & Filters: Search by cuisine, location, and user preferences with detailed restaurant data.
 - Booking System: Reserve tables, add special notes, and apply promo codes.
 - Gift Cards: Customizable designs and values for occasional users.
 - Restaurant Owner Dashboard: Manage bookings, menus, and operational data with interactive performance charts.
- Demo Available: View the live demo on webcode-art.com.
- Achievement: Final thesis project graded 10/10. [GitHub Repository](#)

Innovative Digital Platform for Fitness

- Technologies: React, Node.js, Express, MongoDB
- Designed to enhance user experience in the fitness world, this platform allows users to register, book classes, and manage fitness activities efficiently.
- Key Features:
 - User registration and authentication with email and SMS notifications.
 - Class booking system with automated confirmations for Yoga, Pilates, Boxing, and more.
 - Personalized user profiles with reservation management.
 - Instructor interaction, detailed class descriptions, and contact form.
 - Admin dashboard with real-time charts for managing gym operations.
 - Integration with Spotify for motivational playlists and external notifications.
- Demo Available: View the live demo on webcode-art.com.
- Achievement: Preliminary project for my master's thesis, graded 8.6/10 at Universidad Europea Madrid. GitHub Repository

Professional Experience

- Bar Manager

Fosen Fjord Hotel, Norway

September 2022 – Present

Managed a team and designed seasonal menus, improving customer experience. Developed leadership and problem-solving skills applicable to web projects.

- Customer Service Agent Zara Home (Remote)

November 2020 – March 2021

Resolved logistical and customer service issues for English-speaking clients. Improved remote communication and problem-solving skills.

- Hospitality Roles

Restaurants and Hotels (Barcelona)

2011 – 2022

Worked in prestigious establishments such as W Hotels and Hotel Arts, enhancing customer service and teamwork skills.
